EDITO

THANK YOU !

This is the D-day after almost a year of days and nights work with my astonishing team to make happen that amazing event. **First of all, a huge "thank you" to my team.**

We wanted to create a really international event in the center of Paris where leaders of Banks, Insurers, telcos, regulators and fintechs from all over the world could have **an annual place to exchange on the future of their industry at digital age**, to network, to do real business in cooperation mode, and also of course, have fun. A couple of trips around the world later, and thanks to the support of our wonderful partners and some Fintech friends who will recognize themselves, we are proud to be there: **almost 240 CEOs & institutional/government leaders on stage from more than 40 countries, more than 2300 unique attendees from 62 countries** to come over the 2 days of that 3rd edition of Paris Fintech Forum.

All that is only possible because **YOU believe in the future of that industry** and are willing to take on your time to come and share with all of us your points of view, your needs, and your offers. Thank you for that.

Of course we would not exist without the **incredible speakers who accepted to join us on stage**. All of them already lead a company somewhere in the world. Small fintech, growing scale up, huge bank, major regulation body or active VC, they all are key players of the finance industry. **All of them are involved in the ongoing transformation of Finance by digital**, which is going at light speed with the Fintech factor. I want to personally thank them for their time and support.

Last but not least, doing such a crazy project 3 years in a row with a team of 5 people and so many international commitments, has some impacts on a personal life. I couldn't have made all that happened without the unwavering support of my wife and my 3 kids. I will never be able to thank them enough for that, but I will try.

I hope that those two days will be like **a great family meeting of the whole digital finance community**.

I wish you a great time at Paris Fintech Forum 2018! And we'll be happy to see you again next year, for a brand-new edition already planned at Palais Brongniart, January 29 & 30, 2019.
